Profile

Computer Game Design student at George Mason University working across gameplay programming in Unity, 3D character modeling and animation, and audio production. Experienced in group game projects and in managing an esports team.

Skills

Game development: Unity, gameplay scripting, UI and scene integration, game state management

3D art and animation: 3ds Max (modeling, Biped rigging, keyframe animation), Substance Painter, Photoshop texturing, FBX export to Unity

Audio: Adobe Premiere, sound design, sound effect creation and sourcing, voice acting

Web: HTML, CSS, JavaScript, GitHub Pages

Teamwork: Team management and collaboration in group game projects

Projects

Echo in Time 2D platformer, Unity

- Built Time Stop and Player Slow abilities that share one energy bar, with token pickups to recharge it.
- Reworked the template's physics to run on unscaled time so the player moves normally while the world slows.
- Added a main menu, an in-game menu with rebindable keybinds, and a victory zone.

Pilgrims' Quest Team of five, 2D top-down adventure

- Created and sourced the sound effects (ambience, enemies, footsteps, hits, spells, UI) and made 2D props.

Synthesis Project Unity

- Integrated systems from multiple course units into one start-to-finish game: scene fades, key-and-door unlock, AI companion, turret, day/night cycle, and a victory screen.

Rex and Commander Cosmo 3D character models

- Rex: game-ready model under 2,500 polygons, PBR textures in Substance Painter, Biped animation, FBX pipeline into Unity.
- Commander Cosmo: game-ready model at roughly 1,750 polygons with a Photoshop diffuse texture and walk, run, idle, jump, and death animations.

Celeste and Metropolis Audio projects

- Celeste: remade the sound effects and music and voiced two characters. Metropolis: sound design from existing assets. Both compiled in Premiere.

Education

BFA in Computer Game Design, George Mason University January 2025 – Expected May 2028

- 3.98 GPA. Dean's List (awarded for GPA above 3.5).
- Active member of the college esports program, January 2025 – December 2025, competing across the Mid-Atlantic region.

Associate in Architecture, Northern Virginia Community College August 2021 – May 2024

- 3.97 GPA. Presidential Scholar (awarded for GPA above 3.5).
- Active member of the college esports program for six semesters, competing across the Mid-Atlantic region.

Experience

Boba Barista, Kokee Tea January 2026 – Present

- Provide customer service and maintain daily store operations.

Customer Service Representative, Greg Norman Collection September 2024 – August 2025

- Provided customer service and maintained daily store operations.
- Helped plan and open the Leesburg store location.

Team Manager, Amateur League of Legends Team Summer 2024

- Managed an amateur competitive team.

Customer Service Representative, Domino's September 2021 – November 2022

- Provided customer service.

Warehouse Associate, Amazon September 2020 – June 2021

- Worked in warehouse operations.
